

# Flat Creek Unrestricted Area, Fortitude and West Rogers Winter Restricted Areas Designated Access Route – from Bostock Parking

## A valid Winter Permit is required to enter a Winter Restricted Area

**The CP bridge and tracks are Canadian Pacific Railway property, do not trespass. Note that no bridge is available for foot travel across the Illecillewaet River. At times, a safe crossing may not be available. Please use caution and choose a safe route.**

1. From Bostock Parking, carefully cross to the southeast side of the Trans-Canada Highway (TCH).
2. Travel southwest parallel to the highway (towards Revelstoke) for 25m until you see a tree with an orange marker. From that point, ski down the bank diagonally, aiming towards Fortitude ridge and the CP access road. Follow the orange markers to the CP access road (about 150m).
3. Cross the unplowed access road and travel in a southwesterly direction, into a flat opening, just left of a large, marked hemlock tree.
4. From there, parallel the TCH and follow the markers for about 250m towards the end of the open meadow. Before the end of the open meadow, trend south (left), following the markers towards the thicker forest.
5. Follow a cleared marked trail through the trees. Stay on this trail, until you get to the train bridge at the Bostock Creek and Illecillewaet River confluence.
6. Cross under the tracks by walking or skiing **under** the CP train bridge. **Do not trespass on the bridge.** If available, find a safe snow or ice bridge to cross the Illecillewaet River. At times, a safe crossing may not be available. **Please use caution and choose a safe route.**
